-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I, claims 1-11, in the reply filed on January 24, 2005 is acknowledged. The traversal is on the ground(s) that "the rationale for the restriction is in error". Further, Applicants argued Group II and III claims are not independent and distinct from Group I claims. This is not found persuasive because Applicants have not challenged the Examiner's rationale for distinctness and independence between the restricted Groups in the previous Office Action.

The requirement is still deemed proper and is therefore made FINAL. It is noted Applicants' request of rejoinder of the methods claims 12-26 under the provisions of MPEP §821.04 upon allowance of elected claims 1-11.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-4 and 7 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over U.S. patent No. 6,015,917. The '917 patent

Art Unit: 1621

discloses tantalum amide precursors for the deposition of TaN on a substrate, particularly it discloses Ta(NMe₂)₅ and Ta(NMeEt)₅. See Figure 1. Further, the '917 patent teach the use of solvents for making a solution of the disclosed precursors. See column 11, lines 6-21. Although the '917 patent does not provide examples of such solutions, one skilled in the art would be motivated to make such solutions for the use in the deposition of TaN.

Allowable Subject Matter

5. Claims 5 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 8-11 are allowed.
